## HIGHLIGHTS OF WRV 2290

- Impressive late season stay green and eye appeal
- Avoid drought prone soils and regions
- Tall hybrid with outstanding yield potential for silage or grain
- Fast drydown for grain due to flared husks
- Higher planting populations recommended for silage due to fixed style ear (30-34K planting)
- Above average forage quality combined with medium/soft kernel texture make 2290 a great selection for grain or silage. Pink cob color.
- VIP 3110 option provides season long control of European and Southwestern corn borer, corn earworm, fall armyworm, dingy cutworm, black cutworm and many other insects.
