

# WRV 2606RR Soybeans

## CHARACTERISTICS

Relative Maturity	0.6	Flower	Purple	White Mold	3.0
Pubescence	Light Tawny	Plant Height	M/S	SCN	Resistant
Pod Color	Tan	Emergence	3.0	PRR Tolerance	6.0
Hilum Color	Black	Standability	2.0	IDC Tolerance	3.0

Ratings (1-9: 1 being best, 5 average, 9 worst) based on field observations through 2014 harvest

## HIGHLIGHTS OF WRV 2606RR SOYBEANS

- Soybean Cyst Nematode resistance R3, MR14; Source P188788
- Excellent standability leads to great Soybean White Mold scores
- Better at narrow rows (7-10 inch) but will tolerate wider rows due to “Medium Bushy” plant style.

## 2014 Yield Trials
